

The Maserati Multi 70 technical base is leaving from La Spezia

The Maserati Multi 70 technical base left Tarros La Spezia HQ destination Cherbourg (Northern France) to reach the trimaran that is travelling at high speed towards the English Channel.

Due to the container lab features and the intermodal transport, the base transfer is proving particularly challenging

The container lab was moved by Carbox truck to Novara to reach Paris by train and then Cherbourg.

Logistics play a central role also in Giovanni Soldini's challenges and exceptional results: we are proud that Tarros team is assisting the Maserati Multi 70, a true Italian excellence, to set his sailing records.

About Tarros Group

Founded in 1828, the Tarros Group, thanks to the efforts of 610 employees, connects the different part of the Mediterranean Sea with its ships and various means of transportation: 16 countries, 31 ports and over 450 million people.

Tarros is a leading company in the field of logistics. With a presence throughout the Mediterranean Sea, it is able to offer an efficient, modular, and simple system in all the phases of transport and integrated logistics.
